Project Listing

Sample Project Listing #1: Web Development

Web application development support needed for healthcare application.

Posted 2 hours ago

Hourly: $35.00 - $65.00 Based on experience.
Project Time: 3 months, 25 hours a week.

Project Description:

We are a web development company working with a healthcare client looking to connect patients directly with their doctors. We need someone to be able to take PSD mockup files from our designer and convert them into custom code using HTML, CSS, and JavaScript. We have not decided on which JavaScript library to use, but will be open to working with the one you're most familiar with. We have the designs for 10 pages and will need them to be completed in 3 months. We are open to working with all levels of experience, but the pay will be adjusted based on your experience.

Expression of Interest

Expression of Interest (Own)

Please type your initial response to the client below. This should be between 200 - 300 words.

Expression of Interest:

I see that you need a Fullstack Developer who's experienced enough to build a full functional healthcare application for your business, I'm a Certified Fullstack Web Developer working with the PERN stack. I've built similar projects using SocketIO that we need to connect our patients with their doctors and I suggest using is React as the the Javascript library because it's handy when it comes to performance.

I am Happy to be a part of your business and I'm Looking forward for a quick chat.
